

Mr. and Mrs. Jason Napier
Master Sculptor
Owners and Operators: Napier Sculpture Gallery, Inc.

Jason and his wife, Danielle, together have been building a rooted and respected presence in the arts since 1994 and their future continues to unfold.

Side by side they have embarked on developing a recognizable collection of fine art while owning and operating a successful sculpture gallery and participating in prestigious art shows. Napier sculptures are prominently displayed in numerous galleries, public venues and in collections worldwide.

They are also involved in many wonderful charities that are near and dear to their hearts. Together with their extensive background in business, marketing, fine art casting and the art industry/relations they lend support by increasing awareness, direct involvement in funding programs and hands on volunteering.
